A note on our methodology:

This seat projection is based on the results of a recent poll conducted using Interactive Voice Recognition (IVR) technology, which allows respondents to enter their preferences by punching the keypad on their phone, rather than telling them to an operator.

Taking our national sample of over 2500 Canadians from Friday September 12 through Sunday September 14, we have run them through a model that takes into account both the special arithmetic of our first-past-the-post system, and the parties' historical patterns of support.
